

ELIADA CAMPUS FARM

FALL FARM FUN

UPDATES FROM FARMER ERICA

What we're harvesting lately:

The hoophouse is bursting with fall greens including: lettuce, spinach, scallions, broccoli, cabbage, and kale. The grow dome continues to supply our kitchen with year-round veggies such as lettuce, green beans, tomatoes, cucumbers, and carrots. The market garden wrapped up its growing season in late summer and is getting some fresh compost and mulch for its beds and walkways, in preparation for planting again next spring.

USDA TURNKEY EDIBLE GARDENS GRANT RECEIVED!

Our very own Farmer Erica had the opportunity to travel to Boston, MA to represent Eliada Home as a recipient of the USDA's Turnkey Edible Gardens Grant for the Campus Farm Program. From their website fns.usda.gov "On an annual basis, USDA awards competitive Farm to School grants that support planning, developing, and implementing farm to school programs. USDA's Farm to School grants are an important way to help state, regional, and local organizations as they initiate, expand, and institutionalize farm to school efforts."

harvest!
