

TIMELINE

2018

Idea for the farm's revitalization was sparked with the building of the Geodesic Dome greenhouse.

2019

Hired full time Farm Manager to expand growing initiatives and teach agricultural education classes to youth at Eliada.

2020

Built a 3-season greenhouse to expand food production.

2021

Established the Learning Garden, a quarter-acre outside space, to provide more seasonal produce.

2022

Began hosting farm tours and an annual Farm to Fork Dinner and Social as fundraising efforts.

2023

Built local partnerships to channel excess farm produce to community organizations and established a Farm Internship Program.
